Ilia Shakeri *DevOps Engineer | Linux Enthusiast & Automation Expert*

iliashkr@gmail.com +989193704005 ilia-shakeri Ilia-Shakeri

Tehran, Iran (Open to Remote Roles)

TECHNICAL SKILLS

Containerization & Orchestration
Docker Docker Swarm Kubernetes Docker Compose.

Infrastructure as Code (IaC) & Config Management
Ansible (Playbooks, Roles, Vault) Terraform.

CI/CD & Automation
GitLab CI/CD GitHub Actions n8n (Workflow Automation) Bash Scripting Python.

Cloud & Virtualization
Linux Servers (Ubuntu/CentOS) VPS Management LVM NFS.

Monitoring & Logging
Prometheus Grafana Loki ELK Stack (Elasticsearch, Logstash, Kibana).

Networking & Security
Nginx (Reverse Proxy) Apache Traefik Linux Hardening Firewalls (UFW/IPtables) OpenSSL SSL/TLS Management.

Databases & Caching
PostgreSQL MySQL Redis SQLite Galera Cluster.

Other Tools
Keycloak (IAM) Matrix (ChatOps) RabbitMQ Jira Git.

PROFESSIONAL SUMMARY

Security-focused DevOps Engineer (Certified) combining a unique background in **scientific analysis** with practical expertise in infrastructure automation. Proven track record of reducing incident response times by **40% through ChatOps** using **n8n** and **Ansible**. Expert in server hardening and designing self-healing workflows for high-availability environments. Passionate about implementing **DevSecOps** practices to ensure data integrity and operational efficiency within a forward-thinking IT team.

PROFESSIONAL EXPERIENCE

DevOps Engineer, *OTICAMP*

06/2025 – Present | Tehran, Iran

Leveraged advanced DevOps practices to stabilize and secure infrastructure for scalable applications. Infrastructure Management: Provisioned, configured, and hardened multiple Linux VPS environments, performing initial setup, resource management, and security auditing (Hardening) to ensure 99.9% uptime. Monitoring & Alerting: Designed and deployed a robust monitoring stack using Prometheus, Grafana, and Loki, providing real-time visibility into system metrics and logs. ChatOps Implementation: Engineered a custom ChatOps ecosystem integrating Jira, Prometheus, and Matrix using n8n, reducing incident response time by 40%. Identity Management: Deployed and managed Keycloak for centralized authentication and authorization across internal services. Automation: Developed Ansible playbooks for automated server provisioning, ensuring consistency across development and production environments.

Freelance DevOps & Linux Administrator

12/2024 – 06/2025 | Remote

Provided specialized automation scripts and system administration services. Scripting & Automation: Developed complex Bash scripts to automate routine system maintenance tasks, backups, and log rotations. Security Optimization: Conducted security audits on client servers, implementing firewall rules and SSL certificates to mitigate vulnerabilities. Web Server Configuration: Optimized Nginx and Apache web servers for high-traffic handling and load balancing.

EDUCATION & COURSES

Linux Professional Institute Certification (LPIC-2), *TOSINSO*
06/2025

Linux Professional Institute Certification (LPIC-1), *CanDo*
01/2025

DevOps for Intermediate, *CanDo*
2025

DevOps for Beginners, *CanDo*
2025

Doctor of Veterinary Medicine (DVM), *Islamic Azad University*

KEY PROJECTS

n8n-Prometheus-Matrix Bridge
Built an enterprise-grade alerting system that formats Alertmanager payloads into rich HTML and delivers them to Matrix rooms, featuring self-healing workflows.

Jira to Matrix Notifier
Automated real-time ticket notifications from Jira to Matrix via Webhooks and n8n, streamlining team communication.

Matrix User Manager (CLI)
Created a Bash/Docker-based utility for Synapse server administration, enabling rapid user management via CLI.

LinSecGuard
Developed an automated Linux security auditing tool that scans and applies hardening best practices to servers.

EasyCert
Engineered an interactive tool for generating Wildcard SSL certificates using OpenSSL, simplifying local development security.

Interests

Open Source Enthusiast
Exploring and contributing to community-driven DevOps tools

Playing Piano
Over 10 years of disciplined practice and performance
